CARE AND ANTI-AGING PROCEDURES WITH A PROFESSIONAL JAPANESE MOLECULAR FORLLE'D COSMETICS

Service

Duration

Price

*In our facial treatments, we use **Forlle'd** - scientifically advanced skincare with low molecular weight hyaluronic acid capable of penetrating deep layers of the skin. The technology is based on **research honored with a Nobel Prize**. Today, **Forlle'd** is a global leader in intelligent skincare.*

Forlle'd Carboxy Therapy

Skin renewal without injections.

The procedure activates microcirculation, saturates cells with oxygen and launches powerful detoxification processes. Thanks to carbon dioxide in the mask, there is an intensive supply of oxygen to the tissues, which helps to renew the skin, reduce puffiness and even out facial tone.

50 min

2500 UAH

Forlle'd Oxygenation (Oxygenation Treatment)

An oxygen cocktail for your skin.

The procedure is designed to intensively enrich the skin with oxygen at the cellular level. Restores the energy potential of cells, activates metabolic processes, promotes lifting and reduces traces of fatigue. Recommended for stress, change of seasons or after flights.
